

Green Architecture Day

Slideshows, workshops and discussion time to network with local 'green architects' and permaculture designers, working for sustainable housing and energy-use in the south east.

26 JANUARY 2002

9.30 for 10am start – 17.30

Phoenix Centre, Phoenix Place, Brighton

Introduction to green architecture

Duncan Baker-Brown

The Children's Clinic, Brighton

Duncan Baker-Brown

Brighton Earthship

Frances Hunt and Taus Larsen

Building a co-housing experience

Melanie Nock (Laughton Lodge)

Green energy for buildings

Howard Johns

Brighton Permaculture Trust

Green Architecture Day

26 JANUARY 2002

9.30-17.30

Phoenix Centre, Phoenix Place, Brighton

- 09.30 Arrivals, registration and refreshments
- 10.00 Introduction
Jan Mulreany and Bryn Thomas
- 10.20 Introduction to green architecture
Duncan Baker-Brown
An illustrated presentation that looks at the issues that need to be addressed by design, aiming towards sustainability in the built environment.
- 11.20 Refreshments
- 11.45 The Children's Clinic, Brighton
Duncan Baker-Brown
An illustrated case study of the planned low toxic, energy efficient clinic which is to be built with materials from local, sustainable sources.
- 12.45 Lunch
- 13.45 Brighton Earthship
Frances Hunt and Taus Larsen
This illustrated talk looks at the first earthship to be built in Europe. These innovative structures are largely constructed from recycled materials, including car tyres.
- 14.45 Laughton Lodge co-housing
Melanie Nock
Following a short presentation, Melanie will respond to questions about the practicalities of living in and developing a co-housing community.
- 15.30 Refreshments
- 15.45 Green energy for buildings
Howard Johns
An illustrated look at sources of renewable energy for use in the built environment, including solar, bio-fuels and wind.
- 16.40 Plenary and networking
Led by Jan Mulreany
- 17.30 End

SPEAKERS

Duncan Baker-Brown is a Chartered Architect and Senior Lecturer at the University of Brighton. The Practice he co-founded in 1994, Baker-Brown McKay, pursues an ethos of environmentally benign architecture.

Frances Hunt is a partner in Clifton Design Associates Chartered Architects and specialising green developments, housing and community development.

Taus Larsen is 4th year architecture student studying at the University of East London. He has visited Taos, New Mexico where he spent time building with an earthship construction team.

Melanie Nock is a co-founder of the Laughton Lodge co-housing community. Howard Johns works as a renewable energy consultant, specialising in solar and wind power advice and installations for domestic use.

Jan Mulreany is a professional development trainer and facilitator, and is a trustee of the Brighton Permaculture Trust.

Bryn Thomas is a Permaculture consultant and is lead tutor for courses run by the Brighton Permaculture Trust.
